Liaison with clients and suppliers, creation of ISO9002 QA procedures, implementation of Computer Assisted Translation. Translation checking, proof-reading, and reformatting. Project management.

Additional temporary employment history includes two teaching practice placements in secondary schools; a total of one year's hotel reception work in Switzerland, work as a bank cashier, supermarket work, factory shop-floor work, and voluntary work in a gift shop on the Keighley and Worth Valley railway.

Hobbies and Interests

Motorcycling and Driving	I enjoy motorcycling and am a full member of the Institute of Advanced Motorists, having passed both the motorcycle and car advanced tests with a distinction (F1rst). I am an IMI-certified voluntary observer for my local IAM group, where I provide theory and on-the-road tuition to help associate members attain advanced test standard. I hold a clean driving licence for motorbike and car, and have also passed the HGV Class 1 and 2 driving tests.
Music Performance	I have played the drums since 1981 and play classical guitar, mandolin, and piano to varying degrees of proficiency. I have written, arranged and recorded music, both solo and as part of various groups. I have also performed extensively with originals and cover bands.
Skiing	I have had opportunities to pursue this interest through school trips and during my time working and studying abroad.
Languages	As well as being the subject of my studies at university, I thoroughly enjoy using my language skills whenever possible – both socially and professionally.
Politics and History	Through my studies, I have developed a keen interest in politics and history. I enjoy keeping up-to-date with current affairs.
Green Technologies	I have an interest in technological solutions which contribute to future sustainable living, from renewable energy solutions and electric vehicles to larger infrastructure concepts, such as maglev and solar roadways. I own and use an electric car and electric motorbike.
